FEMALE SEXUAL DYSFUNCTION

Four...

major categories comprise the term female sexual dysfunction (FSD): low sexual desire, sexual arousal disorder, orgasmic disorder, and sexual pain disorder. *Mayo Clinic, April 2004*

Half...

or more of all women during menopause may experience sexual dysfunction. *Mayo Clinic, April 2004*

14%...

of women aged 18 to 59 years reported problems with arousal in one national survey. *JAMA, February 1999*

20%...

of women are estimated to experience hypoactive sexual desire disorder. *National Women's Health Resource Center, September 2005*

10% to 40%...

of postmenopausal women experience symptoms of atrophic vaginitis or urogenital atrophy. It is estimated that 20% to 25% of symptomatic women will seek medical attention for this problem. *Association of Reproductive Health Professionals, April 2002*

1 in 10...

women never reach orgasm. *Merck Manual, 2nd Home Edition, 2004*

19% to 50%...

of women in a normal outpatient population have sexual dysfunction. *N. Phillips, Female sexual dysfunction: evaluation and treatment. American Family Physician. 2000;62:127-36,141-2*

22%...

of women suffer from low sexual desire. *JAMA, 1999*

46% to 81%...

of elderly women, still sexually active late in postmenopause, are affected by FSD. *A. Graziottin. Is there enough evidence for the pharmacologic treatment of female sexual dysfunction? International Society for Sexual and Impotence Research 11th World Congress (ISSIR). November 2004.*
